

Market Vendor Checklist

Make sure you and other market-goers are safe this season with Duuo's Market Vendor Checklist. Check off each of these items during stand set-up to prevent common market accidents from occurring!

- Survey your market stand to ensure tripping hazards are out of the way
- Do a wind test - check that your stand and all your items are secured to avoid falling hazards
- Keep a written log of stand inspection and cleaning throughout the day to keep a slip-free space
- Stack accordingly - make sure customers will be able to safely grab your products with no problems
- Ensure any fragile or breakable items are out of reach from market-goers of all ages
- Check your produce - make sure no items are expired, store items at the correct temperature
- Keep hot food above 60°C (140°F) and cold food below 4°C (40°F)
